Workers' Compensation

Risk Management

There is a strong correlation between lost-time claim prevention and lower Workers' Compensation insurance costs. Therefore, we all have a vested interest in safety.

A safer workplace can drive down the cost of Workers' Compensation.

Our partnership with you includes services such as assistance with your safety reviews, analysis of accidents and problem areas plus so much more. You can trust that we will continue to invest our energy and resources in safety for as long as accidents happen.

Services include:

- Safety Policies & Procedures
- Assistance with OSHA Compliance
- Safety Training & Guidance
- Return to Work Programs
- Industry-specific Safety Manuals
- Safety Posters and Toolbox Topics
- Ability to keep OSHA Logs Online
- FREE access to iSurety RM Online, a personalized, online center that provides resources and tools to change the way you manage safety and risk.

Claims Management

When a work-related injury or illness prompts a claim, iSurety's Claims Management Specialists represent your company and assist your employees with an unmatched balance of professionalism and compassion.

Services include:

- Direction of care to best possible provider
- Contact with medical provider, injured worker, and employer within 24 business hrs of receipt of claim
- 24hr claims reporting by phone or online
- Nurse Triage and Nurse Case Managers
- Thorough investigation
- Accurate evaluation of compensability
- Best-in-class Experience MOD protection
